

Cathy's Care — Brand Type Spec

Locked 3 September 2026 (agreed Cathy + Free). Final.

The fonts

Use	Font	Weight range	Notes
Headings / display	Nunito	600, 700, 800	Warm, rounded, approachable — the "face" of the brand
Body text	Nunito Sans	400, 600, 700	Clean, ultra-legible, pairs with Nunito
Email only	Arial / Helvetica	400, 700	Web-safe — renders identically in Gmail/Outlook/Apple Mail; keep for email bodies & signatures
Symbols / small print	Nunito Sans	400	Footnotes, legal lines

Why

The Cathy's Care positioning is **local, warm, trustworthy, consistent** — the brand's *face* should carry a little heart, so we chose a rounded humanist font (Nunito) for headings and its clean sibling (Nunito Sans) for body. **Arial stays for email** because email clients only reliably render web-safe fonts (Arial/Helvetica/Verdana/Georgia) — no broken layouts, no font fallbacks.

How to load (Google Fonts, free)

```
```html
```

```
```
```

- Document body: ``font-family:'Nunito Sans',sans-serif``
- Headings: ``font-family:'Nunito',sans-serif``
- Email (Gmail/Outlook): use ``font-family:Arial,Helvetica,sans-serif``

Source files

- Sample page (Arial vs Nunito vs Figtree): ``brand/font-samples.html`` — live at ``barrypmarshall.github.io/cathys-care-landing/font-samples.html``
- This spec: ``brand/brand-type-spec.md``
